

Now more than ever Village West offers something for everyone. We're your year-round recreational area located on America's only blue water lake, with accommodations to suit even the most discriminating taste.

Our individual luxury townhouse units feature 2 bedrooms upstairs, 1 bedroom downstairs, 2 baths, a kitchenette, air conditioning, telephones, cable TV and a deck with a lovely view of the lake. If first class quality and convenience are what you crave, this is the place for you.

Generations of vacationers have enjoyed returning to Village West year after year to relax in the rustic atmosphere of our original cabins. Perfect for sandy feet and wet bathing suits, these units are the no-cares place to bring the family. You won't find telephones and televisions here, just a wonderful chance to return to a time when life was a little simpler.

Perfect for a weekend get-away or to suit your business needs, our fine motel offers large, beautifully appointed rooms featuring air conditioning, queen size beds, cable t.v., and, of course, telephones. If you need a suite for a special occasion or as a hospitality room, we can even offer that amenity. All of our facilities are accessible by a glass enclosed walkway. You need never be exposed to the weather.
